Technical Support With System Advice

Why Choose AEL Heat Exchangers UK

Experienced Heat Transfer Specialists

AEL have been designing and supplying Plate Heat Exchangers since 1972 and we know how important it is for us to provide you with a reliable customer service department that has sound technical knowledge of all our products and Heat Recovery Applications.

AEL Heat Exchangers are an Authorised Alfa Laval Distributer, and we have the full range of Alfa Laval Plate Heat Exchangers available to us to provide you with the most suitable Plate Heat Exchanger for your project with all the technical information you will need.

Our friendly Technical Department has had many years of experience in all Heat Recovery Applications that may require a PHE so please contact us and we will ask you all the right questions to make sure that the Alfa Laval Plate Heat Exchanger we recommend is fit for purpose and will integrate easily and efficiently into your

Typical Applications ▾

Learn More About AEL Heat Exchangers

Experience

AEL has been supplying the UK with the highest quality plate heat exchangers supported by our friendly customer service and technical support teams since 1972.

Accredited

All AEL Plate Heat Exchangers are manufactured in Europe and the UK to European and British standards.

Expertise

AEL can provide sound technical advice on all types of Plate Heat Exchangers and we will also provide system advice on how they are best suited to your application if asked.

Quality

AEL Plate Heat Exchangers are all manufactured and tested to ISO9001: 2015 quality certification standards. A large selection of the Alfa Laval Plate Heat Exchangers also carry the ARI certification of Performance and Quality Guarantee via an accredited third party.

Our Partners

AEL in Partnership with Alfa Laval & Techno System Plate Heat Exchangers

Alfa Laval

Alfa Laval was founded in 1883 and is now a leading global provider of first-rate products in the areas of heat transfer, separation and fluid handling. As partners, AEL and Alfa Laval aim to deliver high quality Plate Heat Exchangers and solutions that meet their customers requirements – mainly in energy, the environment, food and HVAC industry.

Techno System

Techno System has a history of striving for quality that began back in 1983 and carries on to the present day. Techno System has one of the largest ranges of Plate Heat Exchanger models available to meet any demand where the transfer of heat between fluids is required. Techno System Plate Heat Exchangers can be supplied with controls or as a basic unit for use in many applications from small brazed units for the home to much larger customized units used for industrial applications.
